## Saphir induction cooktop

### Product information

Here you will find everything you need for a hassle-free cooking experience: space on the cooktop, an exclusive and stylish design with many features and a cooktop that adapts to your kitchen. The powerful motor can be placed according to your needs – either in the base or in a completely different location.

#### Maximum space

The division of the hob allows you to use pots of any size – no matter on which cooking zone.

#### Every cooktop with booster

The boost function increases the power of the selected cooktop for a short time and allows you to reach the maximum temperature faster.

#### Integrated fume cupboard as plug-in solution

Thanks to its compact design, installing the cooktop is child's play. This means less planning effort is required.

#### Bridge function and temperature zones

With the help of the bridge function, 2 fields can be coupled. This means that even larger roasters can be easily accommodated. Defined temperature levels allow you to grill vegetables, meat and fish at the optimum temperature.

## Produktdaten

### Design:

Flush & surface mounting possible  
Narrow & compact dimensions  
Modern cooking zone labeling

### Features & Functions:

Max. space on the cooktop  
Clear cooktop layout  
Interactive Flex Slider Touch  
Power level for each cooking zone  
Bridge function on the right  
Automatic boil-on function  
Automatic pot detection  
Timer  
Pause & recall function  
Melt setting 42°, heat holding setting 70°, simmer setting 94°  
Grill function  
Integrated automatic ventilation control in 10 steps with slider  
Energy-saving EC fan  
Filter change indicator  
Increased space  
Stainless steel filter dishwasher safe  
Easy cleaning  
Stainless steel components for more hygiene  
Activated carbon exchangeable from above (optional accessory)

### Included:

Induction cooktop  
Power cable  
Stainless steel grease filter  
Instructions for use & assembly  
Sealing tape  
Cooking tongs  
Microfiber cloth

### Safety:

Locking, child safety lock, residual heat indicator, sensor circuit / slider, safety shutdown

### Unit dimensions (W x H x D) & weight (kg):

800 × 175 × 520 mm  
25 kg

### Cutout dimensions (W x D):

750 × 500 mm

### Cooking zones:

#### 2 induction cooking zones

190 × 220 mm, 2,1/3,7 kW

#### Bridge function

390 × 220 mm, 3,7 kW

#### 1 induction cooking zones

Ø 210, 2,3/3,7 kW

#### 1 induction cooking zones

Ø 180, 1,85/3,0 kW

### Connection values:

Voltage AC 220-240 V / 3NAC 400 V, 50/60 Hz  
Power 7,6 kW

### Technical data pedestal fan:

Operating mode:	circulation or extraction
Max. power:	597 m <sup>3</sup> /h
Motor:	169 W
Control:	9 levels+ Power + run-on function
Air output motor:	NW 150
Operating noise:	min. 32 dBA / max. 66 dBA
Grease separation:	98,4 %
Grease separation Class:	A

### Accessories:

Air extraction set (9500000377)  
Recirculation set carbon filter in base (9500000379)  
Recirculation set charcoal filter with socket cover (9500000380)  
Plasma filter in socket (9500000387)  
Plasma filter back panel (9500000388)  
Honeycomb carbon filter (9500000384)
